

# Ascending the Ladder of the Spiritual Levels!

**Come experience what it's like to venture into the higher dimensions that your Soul and Spirit know so well.**

You'll be guided through meditations that help you get a sense for how the different levels of energy feel.

You'll discover that each dimension has uniquely different sensations or "markers" that can tell you where you are.

Learning this can help you travel these dimensions on your own, as well as help you access the information and support in those higher realms to improve every category of your life.
